Medicare 101

Turning 65 or enrolling into Medicare for the 1st time?

We will guide you through the Medicare Enrollment process and help make the complexity of Medicare simple. Medicare coverage is not a one-size-fits-all plan. We will sit down with you and help you understand the different options available to you. Focusing on your individual needs and lifestyle, we will educate you on options and find a personalized solution.

Paying too much for your coverage?

Medicare Supplements are standardized by the Federal Government, which means that all companies offer the exact same Medicare Supplement plans. Insurance benefits and coverage are the exact same across different insurance companies, however, costs often vary.

We don't provide solutions from just one company – we represent dozens of them! This gives us the opportunity to price shop the entire market to get the most competitive price, for the exact same coverage. We often hear from clients that we've been able to save them hundreds, if not thousands, of dollars per year, without sacrificing coverage and benefits.
